Widgets/Text pop-up

Creating a text pop-up
Updated 29.8 2022

Index

1. Opening the editor

- Home page
- Project page
- My Projects

2. Choose the widget

- Widgets
- Pop-up's
- Text pop-up

3. Start typing text

- Manually or copy/paste

4. Editing tools

- Text screen size & location
- "Open" button icon
- Colour of icons
- Animation of icons
- Font management

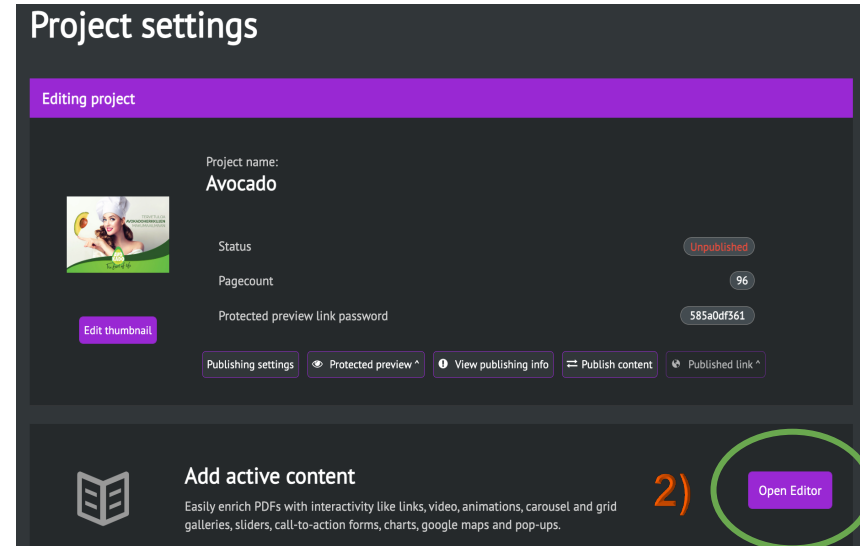

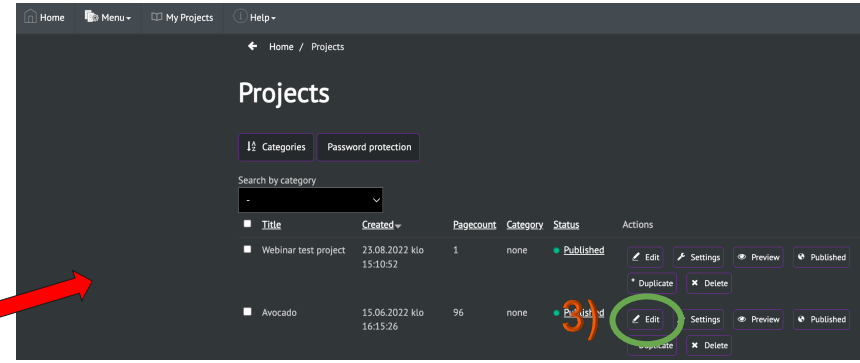

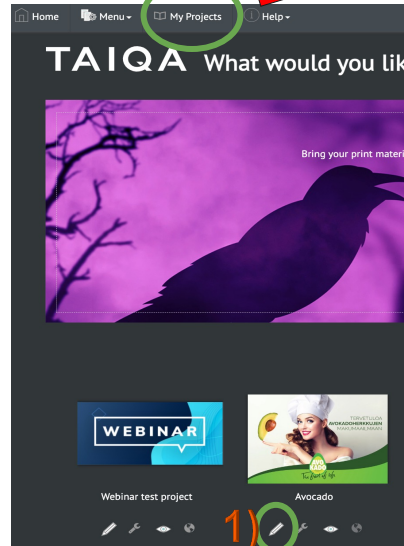

5. You are ready!

- Save draft
- Publish

1. Opening the editor

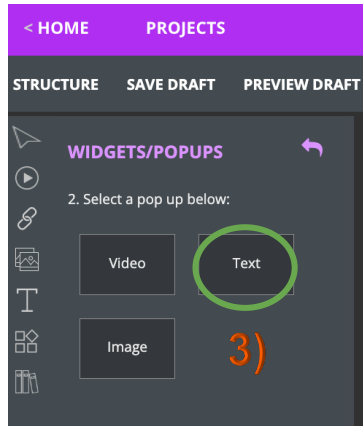

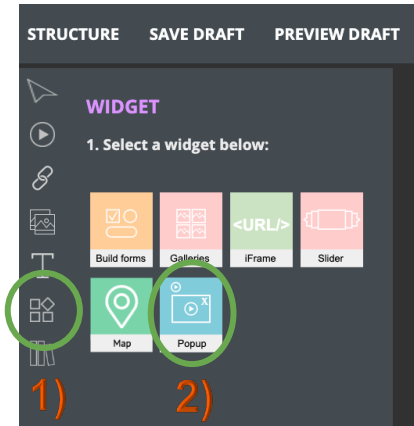

There are 3 paths to enter the editor

- 1) Project pen symbol of the particular project on the home page
- 2) "Open editor" in the project settings
- 3) My Projects page

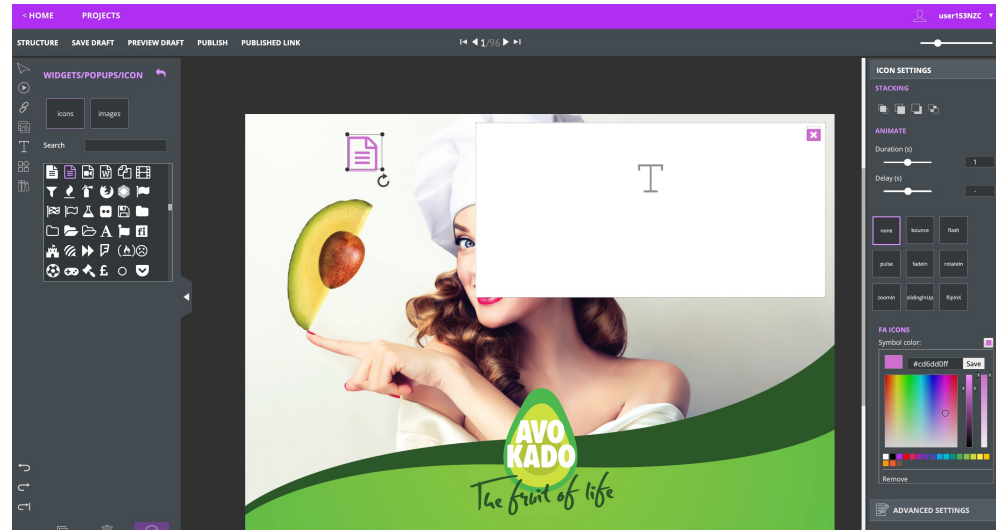

2. Choose the widget

- 1) From the toolbox, select widgets
- 2) Select "pop-up"
- 3) Select pop-up type (text)

- 4) Text editor and icons appear

3. Start typing text

Opening the text pop-up brings the actual elements to the canvas

Double click the text field and editing tools become available on the right hand side

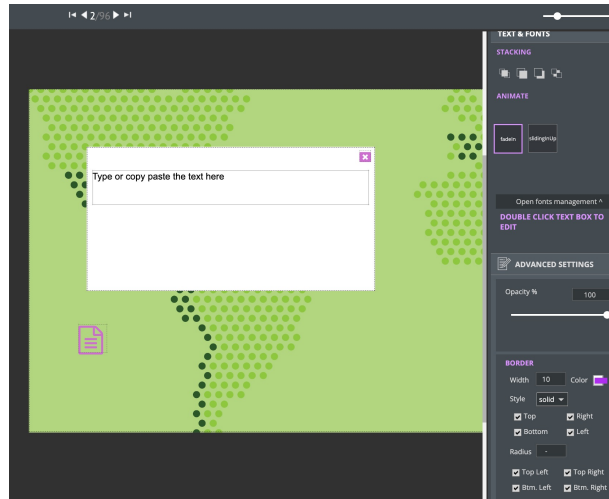

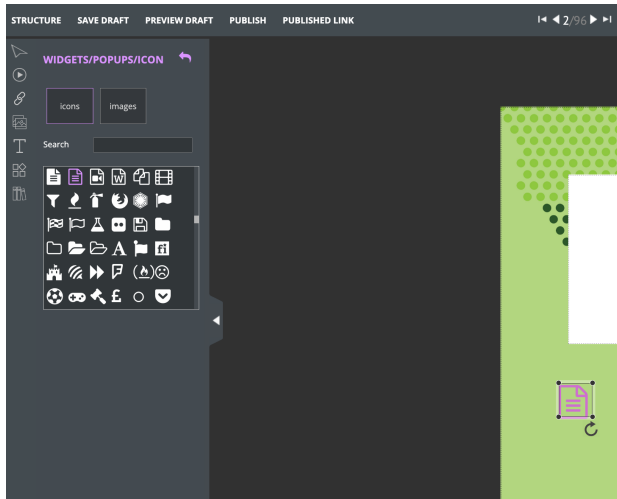

You can now start adding text

4. Editing tools

You can resize and move the text screen and "open" button.

Active element will define what tools will be available left and right side of the canvas.

- Change the "open" icon
- Animate the "open" icon
- Change the color of the open/close icons
- Create borders for the text screen
- Font management
- Bring your own font

NOTE: If you want to place the "open" button under the text screen, remember to stack the icon correctly

5. You are ready!

Once you have placed and edited the elements, press “save draft”

Project is now ready to be published!

NOTE: Remember to “save draft” each time before you change page. This way you secure that all changes are saved!

Thank You!

Feel free to contact us if any problems or questions arise.
