Explore our different models and find your perfect lab grown diamond fit!

All diamonds mentioned are lab grown diamonds.

POLARIS

A classic choice

Our beautiful solitaire Polaris gives you a timeless and clean look. The lab grown diamond is set with six prongs with a shank which gives a classic feeling that never goes out of style.

Choose between 0,30, 0,40, 0,50, 0,75, 1,00, 1,50 and 2,00 carat.

EARRINGS

Choose between in total 0.60, 0.80, 1.00, 1.50, 2,00 and 3,00 carat.

All diamonds mentioned are lab grown diamonds.

VEGA

A glimmering choice

Vega, sister of Polaris, gives you the same classical feeling but with an extra touch. Vega has one center diamond in focus and accent diamonds along its shoulders. The accent diamonds create a sense of additional shimmer on you hand.

Choose between 0,30, 0,50 and 1,00 carat on the center diamond.

All diamonds mentioned are lab grown diamonds.

ELECTRA

Stylish and elegant

Trendy Electra is a solitaire ring with an oval diamond. Electras diamond is setted with four prongs and the trendy shape of the diamond gives the ring an extra touch! Choose between 0,30, 0,50, 0,75, 1,00 and 2,00 carat.

All diamonds mentioned are lab grown diamonds.

STELLA

Our new impressive ring

Get a dazzling and clear look with our newest ring Stella. The modern emerald cut brings bright and large reflections to your eyes. So are you looking for a ring that shines bright like a star, this is the one.

Stella is available in 0,30, 0,50, 0,75, 1,00 and 2,00 carat. Choose the size that fits you!

All diamonds mentioned are lab grown diamonds.

SIRIUS

Be bold with our halo ring Sirius

Alluring Sirius is perfect for you who wants a ring that makes you stand out. Sirius has a larger center diamond which is surrounded by a halo of smaller accent diamonds and a shoulder adorned in even more diamonds.

Choose between 0,30, 0,50 and 1,00 carat on the center diamond.

All diamonds mentioned are lab grown diamonds.

MAIA

The shiny three stone ring

Maia, the shiny three stone ring, is a perfect choice for you who wants a clean but sparkling ring. Maia has a center diamond with two smaller diamonds next to it. All three diamonds are set with four prongs and the design on the ring makes the light reflect very beautiful in the diamonds.

The ring is available in 0,50 carat on the center diamond. The total amount in carat with all three diamonds is 0,68 carat.

All diamonds mentioned are lab grown diamonds.

CAPELLA

The perfect alliance ring

Capella, our alliance ring, is perfect for both engagement and wedding. The alliance ring stands for the eternal alliance between two people. Capella is perfect to combine with other rings but also shines very beautiful on its own.

Capella is available in five different sizes – choose between 0,12, 0,18, 0,19, 0,35 and 0,50 carat.

All diamonds mentioned are lab grown diamonds.

A PERFECT COMBINATION

Halo ring + alliance ring

Keep in mind that rings from Fenia can be combined together. The alliance ring Capella is an ideal match to Vega and Sirius. Therefore, it is smart to choose both your engagement ring and wedding ring from Fenia – for a perfect match!

All diamonds mentioned are lab grown diamonds.

JEWELRIES WITH INSPIRATION FROM THE STARS

The beautiful Northern lights across the night sky, along with its brightest stars is the heart of our inspiration for the rings of Fenia.

1. **Vega** – our glimmering solitaire ring with side stones, is named after the second brightest star in the northern night sky.
2. **Sirius** – our sparkling halo ring, got its name from the brightest star which is closest to Earth after the Sun.
3. **Stella** – Our dazzling and clear emerald cut, has its name from the latin word for star. And is included in the latin name for the North Star, Stella Polaris.
4. **Electra** – our trendy newcomer, a solitaire with an oval cut diamond, is named after the star Electra. A blue and white giant star in the constellation Taurus.
5. **Capella** – our beautiful alliance ring, named after its namesake the star, which is the third brightest star in the northern sky.
6. **Maia** – our three stone ring is named after the star Maia. A star in the constellation Taurus. It is the fourth brightest star in the Pleiades Open Cluster.
7. **Polaris** – our classic solitaire ring is named after none else than the North Star itself. The star stands directly above Earth's geographical northern pole.

JEWELRY CARE ADVICE

If you want your jewelry to last and to give you great happiness for many years it is important to consider the following:

1. Store your jewelry in a jewelry box so that they do not rub against each other.
2. Regularly clean your jewelry so that it retains its luster.
3. To avoid your jewelry from being unnecessarily exposed to daily wear and tear, you should remove your jewelry when bathing, showering, washing dishes, gardening and during workouts.
4. Our white gold jewelry is coated with rhodium to give it extra shine. The rhodium gets worn over time, especially on rings. However, you can always come in and get the rhodium renewed in one of our retailers' stores.

DIAMOND 4 C'S

The quality is based on diamond 4 C's which stand for Carat, Clarity, Color and Cut.

1. **Carat/Weight.** The weight of the diamond is measured in carats. 1.00 carat corresponds to 0.2 grams.
2. **Clarity.** Diamond clarity refers to the absence of inclusions and blemishes. Fenia lab grown diamonds have the clarity VS (inclusions are observed with effort under 10x magnification, but can be characterized as minor).

FL/IF	VVS 1-2	VS 1-2	SI 1-2	P 1-3
-------	---------	--------	--------	-------

3. **Color.** Diamond color actually refers to lack of color. The color grade for Fenia is Top Wesselton (G), nearly colorless.

RIVER D - E	TOP WESSELTON F - G	WESSELTON H	TOP CRYSTAL I	CRYSTAL J	TOP CAPE K - L	CAPE M - N
----------------	---------------------------	----------------	---------------------	--------------	----------------------	---------------

4. **Cut.** Refers to the process of converting a rough crystal into a polished gemstone. The better the cut quality, the more valuable the diamond. More than any other C, the way a diamond is cut determines how big, bright, and lively the diamond appears. The cut grade for smaller Fenia lab grown diamonds is min. very good and for bigger lab grown diamonds over 0,30ct. min. excellent.

IDEAL OR EXCELLENT	VERY GOOD	GOOD	FAIR	POOR
-----------------------	-----------	------	------	------

All Fenia lab grown diamonds over 0,30ct are certified by IGI and all 4C's can be seen from the IGI certificate what follows with your purchase.

Light and brilliant
