	RED/BLACK CLASS 2-3	33

Protective clothing that complies with EN 471/20471 ensures that the user is visible in dangerous situations (vehicle lighting) both day and night. High demands are placed on, among other things, the fluorescence and reflection of the fabric. The clothing is classified based on both the surface area of fluorescent material and the surface area of reflective material, in combination with the reflective surfaces and specific design required.

	Reflective material (m ²)	Fluorescent material (m ²)
Klasse 1	0,14	0,10
Klasse 2	0,50	0,13
Klasse 3	0,80	0,20

INCREASED VISIBILITY

Our collection, VISIBLE, is modern work clothing developed for working in all kinds of environments where certified High Vis clothing is not mandatory, but increased visibility is necessary. The garments feature well-placed High Vis details and functional pockets – everything to make your work more comfortable, easier and, above all, safer.

Protective clothing that complies with EN 343 protects against precipitation, such as rain or snow, fog and rising damp. Clothing and seams are tested for waterproofness and water vapor permeability. The clothing is classified based on its waterproofness and water vapor permeability.

Each individual garment with a signaling function has a classification, but it is also possible to combine two garments for a higher classification than the garments individually. However, such a combination must also be certified to ensure that all requirements for the relevant class are met.

With Blåkläder's combination certification program it is possible to achieve a higher classification by combining trousers and outerwear. The clothing is divided into categories, which are specified for each item of clothing. The classification achieved for a particular clothing combination is shown both in the table below and on the label of the clothing items.

Blåkläder's combination certification program

		OUTERWEAR				
		A	B	C	D	E
TROUSERS	V	2	2	3	1	2
	W	2	2	3	1	2
	X	2	3	3	2	2
	Y	3	3	3	2	2
	Z	3	3	3	3	3

Example of combination certification: sweater art. 3546 in classification category B and trousers art. 1552 in classification category Y have a combination certification in class 3. High-visibility clothing in class 3 is not included in the program, because this clothing already has the highest classification.

CATEGORY D CLASS 1 + **CATEGORY X CLASS 2** = **COMBINATION CERTIFICATION CLASS 2**

HI-VIS UV-T-SHIRT 3337 + HI-VIS SHORTS WITH STRETCH 1586 = COMBINATION CERTIFICATION CLASS 2

CATEGORY D CLASS 1 + **CATEGORY W CLASS 1** = **COMBINATION CERTIFICATION CLASS 1**

HI-VIS T-SHIRT 3421 + HI-VIS TROUSERS WITH STRETCH X1900 1994 = COMBINATION CERTIFICATION CLASS 1

CATEGORY D CLASS 1 + **CATEGORY Y CLASS 2** = **COMBINATION CERTIFICATION CLASS 2**

HI-VIS SWEATER 3359 + HI-VIS TROUSERS 4-WAY STRETCH 1997 = COMBINATION CERTIFICATION CLASS 2

CATEGORY A CLASS 2 + **CATEGORY V CLASS 1** = **COMBINATION CERTIFICATION CLASS 2**

HI-VIS TOOL VEST 3032 + HI-VIS SHORTS WITH STRETCH 1541 = COMBINATION CERTIFICATION CLASS 2

CATEGORY B CLASS 2 + **CATEGORY Y CLASS 2** = **COMBINATION CERTIFICATION CLASS 3**

HI-VIS SOFTSHELL JACKET 4900 + HI-VIS TROUSERS WITH STRETCH 1552 = COMBINATION CERTIFICATION CLASS 3

CATEGORY C CLASS 2 + **CATEGORY W CLASS 1** = **COMBINATION CERTIFICATION CLASS 3**

HI-VIS WINDPROOF FLEECE JACKET 4888 + HI-VIS TROUSERS WITH STRETCH 1551 = COMBINATION CERTIFICATION CLASS 3

OWN IDENTITY WITH VAS

Sometimes details can really make the difference. You can select this yourself by using our Value Added Services (VAS). Determine the unique identity of the company yourself and demonstrate it through personalised work clothing for your team.

EMBROIDERY

SUSTAINABLE QUALITY

Embroidered company logos provide an exclusive and professional look. We embroider one logo or name in high quality directly on the clothing using an embroidery card. All embroidery cards are made and stored in-house, making adjustments quick and easy. In addition to traditional embroidery, you can also opt for embroidery with flame-retardant or reflective thread for standardized work clothing. Sewn-on labels, patches or velcro name tags are becoming increasingly popular. For example, if your employees work in shifts or multiple people use the same clothing, you can easily change the name by using a velcro name label.

TRANSFERS

COST-EFFICIENT PRINTING

Transfers are a cheap and easy way to showcase the company logo. By the use of heat and pressure, we place the logo on practically all work clothing, even water-resistant ones clothing. We use high-quality transfers that are resistant to industrial washing. The type of transfer is determined according to your needs. In addition to the Standard transfer you will find with us reflective transfers for extra visibility, flame retardant transfers for standard workwear or transfers with an embroidery look for an exclusive style. With our plotter printers you can also contact us for name and small text labels in a number standard fonts. All transfers are certified according to OEKO-TEX® STANDARD 100, 1st Class.

SPECIALS

CUSTOMISED CUSTOMISATIONS

Would you like to deliver a clothing order directly to your employee's locker? No problem! Bee You can contact us for services such as personal packaging and labeling. We also have our own sewing workshop where we can make various custom adjustments, such as lengthening or shortening trousers, adding reflective bands, installing extra knee reinforcements, extra pockets and more. Please contact us for more information.

PERSONALISED WEBSHOP

ORDER ONLINE

By ordering through your personal webshop, your company can enjoy more control over all purchases and fast delivery. Together we create an affordable and simple online ordering process. Save time, money and effort and order your work clothing immediately online from a simple, tailor-made webshop. Contact your Blåkläder representative for more information!
